

Referral Report Card

Featuring:
Deb Milka
“Becoming a referral member was super simple!”

The Process

Once I signed up all I had to do was send out (my link) to friends and colleagues and I was also able to share it on a grade level Facebook page I belong to.

I simply wrote up a little blurb about how much my class liked their classbook last year and how easy the process of preparing our pages was.

I also added a couple pictures of our book from last year. Then, the referral sign ups just came pouring in!

Amazon.com Gift Cards

I earned a \$500 gift card for classroom supplies for having the most referrals in November.

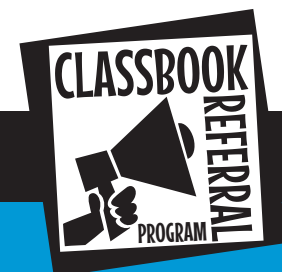

Most of this was used to purchase items for my classroom and my grade level commons area at my school. I was able to purchase STEAM items, books and many other items. If all my referrals publish, I will earn another \$700+ in Amazon.com gift cards for supplies for my classroom.

Why Join?

The referral program is SO easy! It's worth at least joining and trying! You can't 'win' if you don't try!!!

Tips for Other Members:

Posting on the Facebook group I belong to was key in my ability to get so many referrals.

A lengthy “discussion” ensued and I went back often to answer questions and give tips on the steps I used to get my book ready for publication.

Why Studenttreasures?

The process is so user friendly and no matter what the teacher receives a classbook FREE! It is also wonderful that the shipping of the kit, both ways, is free. It is TRULY absolutely free to the teacher.

Personally, I used former (retired) colleagues to help me with my publishing project. After the students wrote rough drafts of their pages, these colleagues came in and worked one-on-one with the kids to get their final drafts down on paper. They also came into class when we did our pictures, just to be extra support for me and the students.

Publishing with Studenttreasures Favorites:

The children’s faces upon seeing their classbook was absolutely priceless. They were so proud! I also love the ease with which the process is done. It’s so very painless!

Other Benefits:

Everyone benefits! The children are eager to write and illustrate their pages. The parents were excited to order this keepsake for their child and again, the faces of the children were worth every moment spent on this project. The kids were so proud of their work!

First Time Publishing

Last year (2018) was my first time publishing. My class’ theme for the year was #spreadkindness so our book was on this theme. This year our theme is #bekind, so I plan to write on this theme again. I expect that this will continue for me as the theme.
